

We invite you to participate in the Educational Grants Program as a sponsor. Annually children from low-income families on a competitive basis apply for educational grants to study at universities in Kazakhstan.

Anyone wishing to join the project can choose their fellows and to transfer a payment to the account of the fund (lump 240 000 tenge or separately in two or three tranches). Later in the year the fund pays the student a monthly educational grant of \$20 000 tenge from these funds.

The "Scholar" project under the Educational Grants Program is open to attract people volunteered to take over the funding scholars.

On June 1, 2014 on the International Children's Day the SOS Children's Village in Almaty hosted the award ceremony of "Give a smile" children's contest, held as part of the information campaign "Hygiene lessons" under Dental Care Program of "Zhakiya" Charity Fund.
